Computer Science student with a strong passion for Artificial Intelligence and natural language processing.

EXPERIENCE

AI Data Annotation & Content Review — Freelance

2023 – Present

· Annotated text data to improve AI model accuracy and contextual understanding.

· Performed fact-checking and web-based research to validate dataset accuracy.

· Reviewed LLM responses for intent, clarity, and compliance with annotation standards.

· Adapted to evolving guidelines and quickly switched between diverse task types.

Independent AI Research Projects — Self-Directed / Ongoing

· Explored applications of AI in NLP, summarization, and classification.

· Practiced evaluating AI-generated outputs for quality and factual correctness.

· Completed online modules on data annotation, AI ethics, and responsible AI development.

EDUCATION

Bachelor of Science in Computer Science (In Progress)
Mount Kenya University, 2024 – 2027

Supplemental coursework: AI & Machine Learning basics, NLP, and Data Annotation (OpenAI Academy).

PROJECT

AI Model Evaluation — Independent Project

· Tests and refines prompts for LLMs to assess output accuracy, coherence, and relevance.

SKILLS

· Data Annotation & Labeling for AI.

· Large Language Model (LLM) Evaluation & Prompt Testing.

· Web Searching & Fact-Checking.

· Intent Checking & Content Review.

· Following complex guidelines with precision.

· Remote collaboration and self-management.

· Strong English Communication (B2+).

· Adaptability & Task Switching.

LANGUAGES

English (Upper-Intermediate, B2+).
